

STRAPPING SYSTEMS

PET strap

Embossed polyester strap in 12–19 mm widths, on request.

Embossed green polyester strap is listed in nominal widths of 12, 16 and 19 mm, on request.

Clipped joints need a matched strap grade, clip profile and crimping tool.

Specifications

STRAP WIDTHS	12–19 mm · 3 widths

YK-PS-16 On request	16 mm · 5/8 in	On request	On request
YK-PS-19 On request	19 mm · 3/4 in	On request	On request

- Choose a strap grade and joint system for the actual load and transport conditions. Width alone does not establish a safe working load, and PET and woven systems cannot be ranked by width alone.
- Strap width is the nominal width of the strap this product fits, not the product's outside size.

Applications

Heavy pallets

16 and 19 mm with sheet metal clips.

Bricks, blocks and tiles

16 and 19 mm, crimped with clips.

Cartons and bundles closed with clips

12 and 16 mm.

Pairs with

Sheet metal clips

12–19 mm

0.50 mm steel clips for joining PET and PP strap.

Use with sheet metal clips in the same width. One clip per joint.

How it is used

- 1** **Overlap**
Overlap the two strap ends inside the clip.
- 2** **Tension**
Pull the strap tight with a tensioner.
- 3** **Crimp**
Close the clip with a crimping tool to lock the joint.

Notes

- Roll length and break strength are confirmed per width with your quote.
- Application examples are starting points, not load ratings. Match strap grade, accessory geometry and finish, tool and load conditions, then validate complete-joint performance before use. Availability is on request.
- Published specifications are catalogue references. Exact dimensions, system suitability and availability are reviewed with your quotation.
- Generated from the YAKU product data. Unknown values read "On request".
