SHEET THICKNESS	On request
MATERIAL	Steel sheet
FINISH	Galvanized
COMPATIBLE STRAP	Steel subject to strap, seal profile and sealer validation
PACKING	Cartons of 1,000 pieces
STRENGTH	On request

Sizes and carton data

PART NO.	STRAP WIDTH	SHEET THICKNESS	PCS / CARTON	NET WEIGHT / CARTON	CARTON (CM)	CARTONS / PALLET
YK-SS-16G On request	16 mm · 5/8 in	On request	1,000	6 kg	On request	200
YK-SS-19G On request	19 mm · 3/4 in	On request	1,000	7 kg	On request	180
YK-SS-32G On request	32 mm · 1 - 1/4 in	On request	1,000	32 kg	On request	45

- Nominal strap widths of 16, 19 and 32 mm. Sheet thickness is on request. Catalogue packing is 1,000 seals per carton; confirm the required profile and sealer before ordering.
- Strap width is the nominal width of the strap this product fits, not the product's outside size.

Applications

Steel bars, pipe and profiles

19 and 32 mm seals on steel strap.

Heavy, dense bundles on steel strap

32 mm nominal strap width; seal profile and sheet thickness on request.

Project cargo

Where steel strap is specified for the load.

Pairs with

We supply the seals. Steel strap itself is not in our range.

How it is used

- 1** **Overlap**
Overlap the steel strap ends inside the seal.
- 2** **Tension**
Tension the strap with a steel strap tensioner.
- 3** **Crimp**
Crimp the seal with a sealer to lock the joint.

Notes

- Typical values per carton.
- Application examples are starting points, not load ratings. Match strap grade, accessory geometry and finish, tool and load conditions, then validate complete-joint performance before use. Availability is on request.
- A matched sealer (crimping tool for steel strap) is needed to close the joint.
- Published specifications are catalogue references. Exact dimensions, system suitability and availability are reviewed with your quotation.
- Generated from the YAKU product data. Unknown values read "On request".
